## Approved For Release 2005/01/06: CIA-RDP81M00980R000200010057-7

Jen FoiA

DCI/IC 78-0603

3 JAN 1978

MEMORANDUM FOR: George Cary

Legislative Counsel

25X1

FROM:

Acting Deputy to the DCI for the

Intelligence Community

SUBJECT:

IC Staff Experience with FOIA

REFERENCE:

Your Memorandum for Morning Meeting Participants, dated 30 December 1977, Subject: Amendments to

the Freedom of Information Act

- Reference reported that as a result of recent discussions between the Director and the Chairman of the Senate Select Committee on Intelligence, the Office of Legislative Counsel is currently assessing the impact of FOIA and working on possible amendatory language. You asked for comments to assist you in this task, in particular, our position on whether FOIA has had a negative or harmful impact on Agency activities and operations.
- The IC Staff has not had a large number of FOIA requests, although some have run to many pages of text. In 1976, for example, we handled an FOIA request for copies of all DCIDs ever published -- more than 200 separate documents. In 1976, the total number of FOIA requests processed by the IC Staff was 21; in 1977 we handled only eight.
- Many of the FOIA requests referred to the IC Staff have involved documents of historical interest which were eligible for declassification review under E.O. 11652. Other requests for more recent material on the organization and management of the Intelligence Community were prompted by the Congressional investigations and the publication of E.O. 11905. In response to these requests, a considerable body of material has been declassified and released. We believe that release of this type of information has helped to increase public awareness of the role of intelligence in our government.
